

**REMARKS**

The Examiner contends that the invention is restricted into two groups:

1. Group I, claims 1-10, drawn to a product of Formula I
2. Group II, claims 11-19, drawn to a method of treating a disorder.

The Examiner also requests that applicants elect a single species if no generic claims are finally held to be allowable, and identify the claims readable on the elected species.

The Examiner states that where applicant elects claims directed to the product, and the product claims are subsequently found allowable, withdrawn process claims that depend from the allowable product claim will be considered for rejoinder.

Applicants elect Group I for examination. Applicants also elect tert-butyl 3-ethyl-5-formyl-4-phenyl-1H-pyrrole-2-carboxylate as the species. Readable claims include: Claims 1-4, 6, 10-19. Applicants request that upon allowance of the product claims, the Examiner rejoins process claim 18.

Applicants have canceled Claims 11-17 and 19 without prejudice. Applicants reserve the right to pursue the subject matter in subsequent applications claiming benefit hereto. Claims 1-10 and 18 are pending in the instant application after the current Amendments.

If a telephonic communication with Applicants' representative will aid in the advancement of the prosecution of this application, please telephone the representative indicated below.

Respectfully submitted,

By:
